10x Tris-Glycine-SDS Running Buffer

Product	Volume	Cat. No.
10x Tris-Glycine-SDS Running Buffer	1 L (10x)	EBA-1041

Description.

Elpis Biotech's Tris-Glycine-SDS Running Buffer (10x) is suitable for use as an electrophoresis buffer for Tris-Glycine-SDS gel to separate proteins. Premixed electrophoresis buffer eliminate variables which can distort data and give unreliable results. Ten liters of 1x buffer can be made from 10x buffer stock. Premixed buffers are made from the high quality reagents and are carefully mixed and tested to ensure reproducibility.

10x Composition

0.25 M Tris base
1.92 M Glycine
1 % (w/v) SDS
pH approx. 8.6

Recommended Storage Condition

- ◆ Store at Room Temperature

Usage Information (applications)

- ◆ Electrophoresis buffer for Tris-Glycine-SDS gel

Caution

Not for diagnostic use. The safety and efficacy of this product in diagnostic or other clinical uses has not been established.
