ISO9001

1.5M Tris-HCl (pH8.8)

Product	Volume	Cat. No.
1.5 M Tris-HCl (pH 8.8)	500 ml	EBA-1045

Description.

Elpis Biotech's 1.5 M Tris-HCl (pH8.8) is suitable for use as an electrophoresis buffer and gel solution. 1.5 M Tris-HCl (pH8.8) is made from the high quality Tris and are filtered by 0.2 μ m filter

Composition

1.5 M Tris base
pH at 25°C : 8.8

Recommended Storage Condition

Store at 2-8°C

Usage Information (applications)

Electrophoresis buffer and gel

Caution

Not for diagnostic use. The safety and efficacy of this product in diagnostic or other clinical uses has not been established.
