Ethidium Bromide Solution (10mg/ml)

Product	Volume	Cat. No.	Remarks
Ethidium Bromide Solution	20 ml	EBA-1202	10mg/ml

Description.

Elpis Biotech's Ethidium Bromide Solution (10mg/ml), is a fluorescent dye suitable for staining nucleic acids after electrophoresis or in cesium chloride gradients. The solution can be used to detect both double-stranded and single-stranded DNA.

Composition

Ethidium Bromide 10mg/ml in distilled water

Recommended Storage Condition

Store at room temperature (22-25°C)

Usage Information (applications)

Staining nucleic acids after electrophoresis or in cesium chloride gradients

Caution

Not for diagnostic use. The safety and efficacy of this product in diagnostic or other clinical uses has not been established.
