## Nucleic Acid Purification beads

Product	Qty	Cat. No.	Remarks
Glass Milk (Silica 50% slurry)	10ml	EBD-1025	silica
Magnetic Silica (10% slurry)	10ml	EBD-1026	silica coated magnetic particle

### Description

Elpis Biotech's Nucleic Acid Purification beads (Glass milk and Magnetic Silica) are suitable for purification of plasmid DNA or gDNA.

### Binding capacity

- ◆ Glass milk                    20  $\mu\text{g}$  / 10  $\mu\text{l}$  ( 50% slurry )
- ◆ Magnetic Silica            4  $\mu\text{g}$  / 10  $\mu\text{l}$  ( 10% slurry )

### Recommended Storage Condition

Store at Room Temperature.

### Caution

Not for diagnostic use. The safety and efficacy of this product in diagnostic or other clinical uses has not been established.
